Translation notes:

Pages 2-4: Most of the dialogue here comes straight from the same scene in the movie. Most of this has been taken straight from The Ron version of the subs. With some exceptions.

When Kyrie comments on them, she literally says that they are "amazing/terrible" (the same duality of that concept as in Ivan the Terrible's name), and even the subs are split on this. The original translates this as powerful and theRon translates it as "wild".

The bit at the end with the key, in the movie she straight out says they are an important key. Here Iris splits it and says it a bit differently and adds the interrogative ne at the end.

Page 7: Another Not My Kyrie moment IMHO. Let me tell you, GoD variant would not have been embarrassed about being half naked.

Page 13: This bit about what "Three souls" are, is not as firm as I'd like, but it's closer to what some spoilers from Detonation indicate. Basically the Eternal Crystal/Yuri was their owner. And I'll leave it at that. But this construction is still WEIRD!

Pages 15-16: She is speaking this as a narrator from the future. She regrets not clearing the air with Iris.
